

Antonelli

Everyday is a good day

 
MADE IN ITALY

www.antonelligroup.it

Antonelli

In 1957 Nicola Antonelli founded Dolciaria Romana Antonelli, a small confectionery workshop that was to be the point of origin of what is today one of the most important realities in the confectionery sector. A reality that, with its more than 15,000 square metres of production sites, is appreciated and recognised as a reference point on a national and international level, renowned for its leavened bakery products and craftsmanship.

If, according to Tolstoy, 'there is no greatness without simplicity, goodness and truth', Antonelli has been able to combine these qualities with a continuous technological update made up of research and attention, fine managerial skills and respect for tradition. All to offer you an ever better day.

Antonelli

The secret behind the goodness of our products lies in the careful selection of top-quality raw materials and attention to ingredients, the magic of leavening and baking, in the filling and packaging. A method rendered perfect by the skilful mastery of those who know how to regulate times, quantities and the succession of phases, harmonising the moments of a process that knows no setbacks.

Omelli

Antonelli

OUR INGREDIENTS

Flour

Our love for cooking and for the goodness of natural ingredients has led us to a continuous search for the best grains from which we produce our flours, milled using natural stone in order not to lose trace elements, fibre and protein.

Cereals

The main food source for mankind, cereals are the basis of our work. Precisely for this reason, the care and love put into their processing represents the beginning of our great journey.

Jams

Fresh fruit picked and prepared to make any dessert delicious. Jams are the heart of our products, a wonderful surprise hidden in a shell of goodness.

Chocolate

Among the most loved flavours by young and old, chocolate is for us at Antonelli more than a product, it is a mouth-watering mission made of flavours and research. To give our products the best taste.

Eggs and cream

Two essential ingredients to make our products special, the eggs are selected methodically while the cream is processed with care and love. We leave nothing to chance.

Honey

Unparalleled sweetness for our honey, the magic that makes Antonelli products special and irresistible for everyone.
